INTRODUCTION TO MODULE "0"

AIM

"Introduction to the REBUILD Training Strategy and to the Key Concepts" is the **introductory module to the overall REBUILD Project training component**. As such, it is a crucial and structural module that will set the basis for all the further training

OBJECTIVES

To share among all participants an overview on the structure and functioning of the overall training strategy of the project and the roles and responsibilities of each actor - PMU, Universities, Municipalities - at each stage

To present the REBUILD training curriculum and in particular the conceptual framework and a shared vision on the role of local authorities based on a Territorial Approach to Local Development (TALD)

To introduce the experience of Trentino and the Autonomous Province of Trento as a meaningful case study on local governance and territorial development

EVALUATION

MODULE "0"

- was a test, useful for partners to organise and implement the next training activities (Cycle 1, January - June 2022)
- was overall successfully implemented (e-learning platform and material easily accessible), although some issues still have to be addressed (such as teaching methodology and logistics/equipment)
- although a good number of evaluations were received, both by trainers and trainees, the numbers can be improved for the next training activities
- each partner - Municipalities, Universities - significantly contributed to the implementation of the activities, including the Logistics Service Provider SBR Services

Thank you!
